Songwriting, Reading, Programing,
Art Criticism, Psychology

PROFILE

I am a recent graduate of JPCatholic University, a private Film and Business school in San Diego, where I studied Classics, Writing, Video Production, Social Media Marketing, and Team Management. Since then I have worked for multiple Content Creators on a variety of projects, and have experience in professional and student production environments. I am interested in being part of any media team focused on excellence and human connection.

EXPERIENCE

MEDIA EDITOR AND CREATOR

FREELANCE | 2017 - PRESENT

I have worked for multiple Content Creators on various projects gathering hundreds of thousands of views. I currently do editing for Matt Fradd, a Christian Media Personality, editing his videos and managing his upload schedule.

SET EXPERIENCE

SAN DIEGO | 2016 - 2019

JPCatholic is primarily a film and business school. While attending I helped on dozens of different sets in a variety of different positions, from PA to Director.

OTHER EXPERIENCE

I have worked in a variety of other settings both in the media field and otherwise. I believe that each experience has contributed invaluable to my professional skillset and development. Working with kids and parents at **Kidventures** I had to learn how to make even the most uncooperative client feel welcomed and understood. Shooting Sports with **TVX Video in San Diego** gave me hands-on experience with complex media system development and set-up.
